

Distraction

Look for Something Specific

Look around and find things with a certain shape, colour, or other simple detail.

Sort a Few Things

Choose a few items and put them into a simple order or groups. It doesn't need to be perfect.

Keep Your Hands Busy

Try a simple repeated activity, such as folding paper, stacking objects, or tracing shapes.

Count in a Pattern

Count forward or backward by 2s, 3s, or another number for a short time, then stop.
